University.

An Important Field Conference,
May 12, 2021

A Brief Summary

- ▶ A new idea: **Idea 1.**

- ▶ A new idea: **Idea 1**.
- ▶ We show **surprising** result.

Agenda

1 Introduction

2 Model

3 Results

4 Managerial Implications

- ▶ Customers buy **bundles of resources** in combination.

- ▶ Customers buy **bundles of resources** in combination.
 - ▶ Example: Airline itinerary.

Agenda

1 Introduction

2 Model

3 Results

4 Managerial Implications

- Key parameters of agent W : θ, γ

- ▶ Key parameters of agent W: θ, γ
- ▶ Key parameters of agent C: δ, ω .

Agenda

1 Introduction

2 Model

3 Results

4 Managerial Implications

Key Non-Existence Result

Suppose $\gamma > 0$. There does not exist an outcome where $\delta > 0$ and $\Delta > 0$. That is,

$$\gamma > 0 \implies \delta \cdot \Delta < 0.$$

Key Non-Existence Result

Suppose $\gamma > 0$. There does not exist an outcome where $\delta > 0$ and $\Delta > 0$. That is,

$$\gamma > 0 \implies \delta \cdot \Delta < 0.$$

Possible Misinterpretation

This is not to be misunderstood with $\delta < 0 \implies \Delta > 0$.
